FIRST IN RESULTS TO ADVERTISERS

NUMBER 10

Ration Book 4 Registration Starts Tuesday

Teachers of Four Rural Schools Will Aid Antioch Staff in Work

Registration for War Ration Book No. 4 will be held in the Antioch Grade School building Tuesday, Wednesday, Thursday and Friday, Oct. 19-22 inclusive, from 2:30 p. m. to 4:30 p. m.

Pupils will be dismissed at 12 o'clock noon on those days, Principal Richard Whitacre announces.

Residents of Antioch township whose last names fall within the A-F group will be registered on Tuesday; those in the G-L group on Wednesday; M-R Thursday and S-Z Friday. Assisting the Antioch school's teaching staff in the registration will be Marion Block of Hickory school; Mrs. Lucy Himens, Emmons; Mrs. Ethel Munson, Channel Lake, and Mrs. Doris Bray, Grass Lake school.

According to information received to date, the following are some of the points to remember by those wishing to register:

No Ration Book 4 will be issued to any applicant unless he presents his book No. 3 at the time of registration. The fact that Book 4 has been issued must be noted on Book 3, but no stamps are to be removed from Book 4 under any circumstances.

Can Register for Family

An adult member of any family may register for the entire family by presenting the family's supply of No. 3 Books. Family registration includes all persons related by blood, marriage or adoption and who regularly live in the same household. This family registration also includes any members of the family who are temporarily away, such as students, travelers, or hospital patients who are away not more than 60 days. Individuals living in the household who are not related by blood, marriage or adoption must register for themselves.

No registration may be made for members of the Armed Forces who receive their subsistence at a general mess, nor for inmates of prisons, mental hospitals or persons who do not intend to reside in the United States for more than sixty days.

The registration will provide a new check on persons who have failed to return to their rationing board the ration books issued to men who have gone into the service or those who have died. Book No. 4 will not be issued to persons who have not turned in such ration books or who do not sign an affidavit that these ration books will be returned to the ration board at once.

Sgt. Edlmann's Death In Bomber Action Confirmed

Word Is Received by War Dept. from Germany via Red Cross

Reports received by the family this week from the United States Army Adjutant General's office in Washington D. C. have officially confirmed the loss of Staff Sergeant Walter C. Edlmann, son of Mrs. Marie Edlmann of Antioch.

Sgt. Edlmann had been reported missing in action over Ochtersleben, Germany, by the War Department.

Gunner on Bomber
The adjutant general's telegram, dated Oct. 8, states that the German government, through the International Red Cross, has reported that he was killed in action July 28.

Edlmann, a gunner on a bombing plane was attached to the Eighth U. S. Air Force command. He had been in the air corps for about a year, and had been overseas for a month. He was 18 years of age when he entered the service.

Two brothers are serving in the U. S. Navy—Simon Edlmann, fireman first class serving in the Atlantic area, and Herman Ray Edlmann.

Dr. Tague Takes Part In Program at Purdue

Dr. W. T. Tague returned Sunday from attending the annual three-day Veterinarians' short course at Purdue University, Lafayette, Ind. On Saturday he demonstrated an operation for the gathering, which was attended by 1,153 veterinarians from all parts of the country.

Legion's Dance Saturday Night To Be "Informal"

The dance which the Antioch American Legion post will sponsor Saturday evening for the benefit of its building fund will be informal, the committees have announced. The Antioch Township High school gymnasium will be the setting for the affair.

Both old time and modern dancing will be featured, with music by the Wilmoit players. Dancing will commence at 8:30 p. m. and continue until 1 a. m.

On the general committee are Floyd Horton, Elmer Langosch, Otto S. Klass and C. L. Heath.

Members of the Legion auxiliary will be in charge of refreshments.

Miss Ella Ames Long Career of Service Ended

Life-Time Worker in Anti- och Methodist Church Dies at Age of 83

Miss Luella "Ella" Ames, whose gentle, unassuming and worthy life was an inspiration to all who knew her, passed away Sunday at the Lake County General hospital in Waukegan and was buried in the family lot in Union cemetery at Hickory Corners Wednesday afternoon following services in the Strang Funeral home.

Although Miss Ames had been ill since last March and was known to be failing, word of her death was received with deep sorrow by her many friends.

In spite of her 83 years, she and her sister, Miss Lily Ames, now living in Libertyville, had continued until last spring to care for their home and to take an active part in the affairs of the Antioch Methodist church.

Worked in Store, Postoffice
Miss Ames was a life-long member of the Methodist church and was for many years an officer in the local parish organization, continuing in that capacity until her final illness.

She was born at the Ames homestead, Hickory Corners, on Jan. 6, 1860, and was the daughter of Elijah and Phoebe Ames, early settlers. For many years she was employed as a clerk in the Williams department store, and also worked for a time at the Antioch post office.

In addition to her sister, she is survived by a number of nieces and nephews. A brother, Truman Ames, passed away here March 20, at the age of 88. Also preceding her in death were two other brothers, Walter, who served in the Civil War and died in Pennsylvania, and Dr. Edmond Ames, for many years a physician here, who died in 1917, and five sisters, Mrs. Jerome (Lydia) Story, of Antioch; Mrs. Oscar (Rispa) Grandy, of Garfield, Kans.; Alice, who died in infancy; Miss Watty Ames of Antioch, and Edith, who died in infancy.

Services were conducted by the Rev. W. C. Henslee, who cut short the vacation he and Mrs. Henslee were spending at their cottage near Rhineland, Wis., in order to be present, and S. E. Pollock, who at one time served in the pulpit of the Antioch church.

Tenth District Legion Will Meet in N. Chicago

Sharvin Post of North Chicago will be host to the Tenth District American Legion meeting Friday evening, at which the Antioch organization will be represented, John L. Horan of Antioch, district scribe, states.

Val F. Trimen, who is connected with the liquor industry, will speak on its contributions to the war effort. A representative from the U. S. Navy will be present to discuss the present day recruiting system.

The commanders' and adjutants' conference will be held Oct. 22 and 23 in the Sherman hotel, Chicago. The executive dinner Friday evening, Oct. 22, will be open to commanders whose posts have reached their required percentage of paid-up membership.

Wheatland Township Lad Has Infantile Paralysis

Robert Lois, Jr., three-year-old son of Mr. and Mrs. Robert Lois of Wheatland township, Kenosha county, was taken to the Milwaukee Children's hospital for treatment for infantile paralysis last week. The case was diagnosed as mild and was not expected to result in serious permanent injury to the child.

War Campaign Fund Pledges Are Received

Lions Club Sponsors Town- ship Drive in Nation-wide Campaign

Although no formal effort has as yet been made for Antioch's participation in the nation-wide campaign for the National War Fund, Inc., pledges of contributions have already been volunteered, according to Oscar E. Hachmeister, local chairman.

The Antioch Lions club has consented to act as the local sponsor for the drive here. Assisting on the committee will be Rudy Eckert, vice-chairman; George Joedicke, secretary; Walter Darnaby, treasurer, and Howard K. Gaston, publicity chairman.

For U. S. O. Relief Work

The committee has accepted a quota of \$1,500 for the 1943 fund. Proceeds go to the U. S. O. and to the organizations ministering to the suffering people in allied countries.

For purposes of unity, the Antioch township area is conducting its campaign in co-operation with the Metropolitan Fund created for raising this region's appropriate share of the National War Fund in the Illinois counties of Cook, Du Page and Lake. The aim is to consolidate efforts along this line in a single, unified drive, somewhat in the order of a community chest fund.

Persons wishing to make contributions may notify Chairman Hachmeister at the Quality Meat Market, tel. Antioch 101.

Eugene Cox, 74, of Cox's Corner Dies In Chicago

Well Known Storekeeper and Scenic Painter Was Ill Only One Week

Eugene Cox, whose store at Cox's Corners on Highway 173 between Antioch and Channel Lake has been a landmark for many years, was laid to rest in Hillside cemetery Monday morning, following services held at 10 o'clock in the Strang Funeral home. He was 74 years of age.

His death occurred at Jackson Park hospital, Chicago, last Thursday morning, following a week's illness.

Among his other talents, Cox was a scenic artist, and many residents and visitors in this region have enjoyed the pictures he created.

Born in Buffalo, Mo., Jan. 1, 1869, he had made his home here for a quarter of a century, coming to Antioch from Chicago.

Survivors include his wife, Sue; four sons, Eugene, Jr., Riverside, Ill.; Dr. H. Hoyt Cox and Bowman Cox, Chicago, and Morris of Bensenville, and a daughter, Mrs. Irene Teck, Chicago.

Chicago Symphony Will Give Concert in Waukegan

The opportunity to hear the Chicago Symphony orchestra free of charge is being afforded music-lovers through the courtesy of the American Federation of Musicians and the co-operation of musical and civic organizations of Lake county. The orchestra will play in the Waukegan Township High school gymnasium Tuesday evening, Oct. 19.

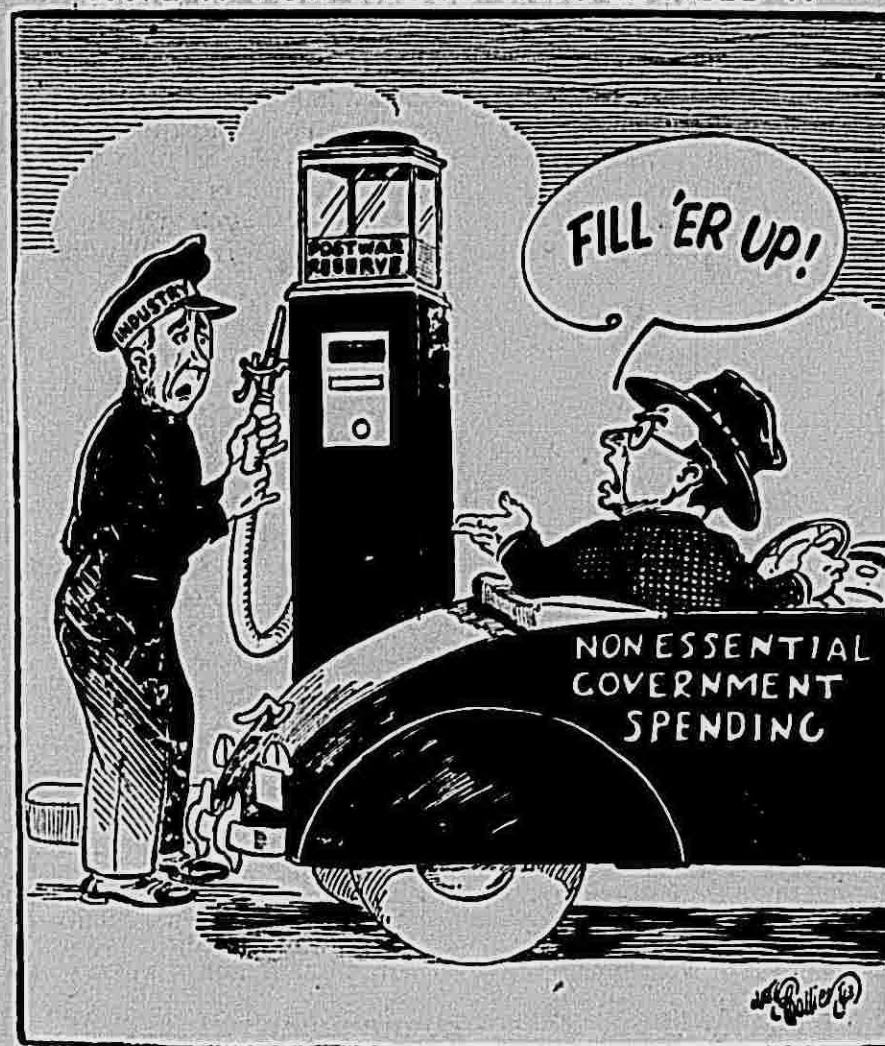

The concert will commence promptly at 8:15 p. m., and those planning to attend are being requested to arrive as early as possible, so that all may be seated before the program opens.

Letters are being sent out by Irwin L. Stockstill, chairman, and George Pritchard, secretary, of Local No. 284, to the various organizations in the county, asking them to call the program to the attention of members and friends.

Recruiting Chairman for Waves Is Appointed Here

Mrs. C. L. Heath, president of the auxiliary to Antioch Post No. 748 of the American Legion, will take over the chairmanship of a committee for accepting enlistments of Waves in the Antioch area, Chief Longgren of the Navy Recruiting station at Waukegan announces. Chief Longgren states that the navy hopes to recruit at least two Waves every month from this area.

SAVE IT FOR THOSE WHO'LL NEED IT

News of the Boys in Service

"I have been pretty busy, but haven't any news for you other than what you read at home," Donald A. Nelson writes from England. "My company had a party a short time ago and who did we have? Yes, sir, the Wacs, and what I mean, it was a swell party. It sure was nice to talk to them. They were the first Wacs who landed here. Are they ever proud of their uniform! I don't blame them. I am, too!"

"I do think the American Legion is doing a wonderful job, also the Red Cross, and everyone back home, those working and buying bonds to keep us going," we hear from T/3 Frank Sciacero, who is at Flora, Miss., near Jackson. "Everyone back home, including all my friends all over, sure treated me wonderfully on my recent 15-day furlough. It felt great to get back to Lake Villa and drive the trucks of the fire department, of which I have been an active member, and I hope some day to do it again."

Harvey Cunningham, on duty in the Pacific area with a Navy C. B. ("Sea Bees") outfit, says "There is quite a bit of wild life here. We have lizards that are three and four feet long. Sometimes they are found in our beds when we turn in at night. (Editor's Note: Harvey doesn't say whether or not they just went there, or were placed there.) There are also lots of wild hogs, parrots, cockatoos. The natives are all friendly. They wear very little clothes, but are very thrifty otherwise. . . . I don't believe there is any place where you can see more co-operation by every man, officers and enlisted men alike, than in a C. B. battalion."

Harvey also spent a little time in Australia, and comments, "The Australian beer is a little stronger than ours back home, but it is good. The people have some funny expressions of slang, but we were able to catch on fast. Also, our slang got them down a little, too, at first."

He closes his letter with "Thanks for the good work you are doing on the home front."

Fort Sheridan, Ill., Oct. 6.—Four new military units will soon make their home at Fort Sheridan under the forthcoming changeover of this Post from an Army Ground Forces to an Army Service Forces installation.

The new additions will be a recruit reception center, a rehabilitation center, the parent School for Bakers and Cooks and the Sixth Service Command Training Center. The latter includes Visual Training Aids section, a clerical school, a special training unit, a basic training battalion and an officers' pool.

For two of the units, the RRC and the B and C School, the switch will be a homecoming. Fort Sheridan's reception center, which was the first such center to be in operation under the Selective Service System, was inactivated June 15, while the parent B and C school was moved from Fort Sheridan to Camp McCoy about the same time.

Sgt. O. Phillip Palaske has been moved from Will Rogers Field at Oklahoma City to Charlotte, N. C.

Hunters Await Time to "Open Firing" Friday

One-half Hour Before Dawn Is "Zero" Period for Wild Ducks

Wives who welcomed Husband Nimrod's triumphant return from the hunt with a faint hesitation, based on the fact that wild ducks must not only be stuffed, they must also be peeled of feathers and stripped of innards, are expected to greet the returning hunter with open arms in view of meat rationing and what-not, when he comes back with a full bag of game after the opening of the duck season here tomorrow morning, one-half hour before dawn.

Antioch residents who have grown calloused to being bounced out of their beds by the opening blast at Grass Lake and other nearby waters at sunrise have a new experience before them.

This year they'll be awakened one-half hour before sunrise. Shooting will continue until 4 o'clock.

In spite of rationing of ammunition, there is expected to be a fair turnout this year. It is believed, however, that the old pull-the-trigger-and-blast-'em technique will be abandoned this year in favor of marksmanship more nearly analogous to "precision bombing" and that the ammunition used will be expended with greater care.

Hunters and resort owners began unusually early this year to prepare their blinds, boats and decoys, inspired by indications of a general increase in all species of ducks.

Bag Limits

Sportsmen may retain birds lawfully taken for a period of 45 days after the close of the season on Oct. 23. Sora have been included in the bag limit with coot, but the aggregate taken daily may not exceed 25. Daily bag limits on ducks are 10 in the aggregate of all kinds, including not more than 1 wood duck or more than 3 singly or in the aggregate of redheads and buffleheads.

Any person at any one time may possess not more than 20 ducks in the aggregate or all kinds, but not more than 1 wood duck nor of 6 of either or both redheads or buffleheads.

Scrap Iron and Waste Paper Being Collected

While iron scrap in the vicinity of Antioch is believed to have been pretty well picked up in previous drives, there is considerable demand for waste paper at the present time.

C. L. Kutil, agricultural instructor at Antioch Township High school, states that small amounts of either scrap iron or paper may be brought to the school, where arrangements have been made for collecting it.

Anyone having a large amount of either iron or paper may telephone Kutil at his home, Antioch 296, or at the school, Antioch 214, he states, and arrangements will be made for having it picked up.

WAUKEGAN UNEMPLOYMENT OFFICE OPEN TUESDAYS

Because of sharp reduction in the number of workers seeking job insurance benefits, the Waukegan office of the Illinois Division of Unemployment Compensation will be open only one day a week, Tuesdays, from 9:30 a. m. to 3:30 p. m., for the taking of claims, Deputy Joseph Kessel announces.

Fire Department Elects Rosing New President

Firemen Answered 32 Calls During Past Year, An- nual Report Shows

Herman Rosing was elected president of the Antioch fire department to succeed Einar Petersen, at the annual business meeting held Tuesday evening in the village hall.

Other officers are Clarence Shultis, re-elected secretary; George Garland, who has served 22 years as treasurer, re-elected; Einar Petersen, captain; Cleto Vos, lieutenant; Earl Cunningham, sergeant-at-arms, re-elected.

Clarence Shultis was elected delegate to the Lake County Firemen's association for three years. Einar Petersen has two years of his term left, and Laurel Van Patten one year.

Cleto Vos is the retiring captain and Dudley Kennedy the out-going lieutenant.

T/4 Edgar Simonsen, a member of the department who is now in the service, was a visitor at the meeting.

Reports on Fire Prevention Week, Oct. 3-9, showed that inspections of rural schools in the Antioch fire district (Illinois District No. 1), were made, in addition to inspections of Antioch Grade school and Antioch Township High school.

The Antioch business district was also inspected.

Practically all of the places visited were in good condition, and conditions which needed correction are being taken care of, Fire Chief L. L. Van Patten states.

Fire Losses Total \$5,645

The Antioch department answered 32 fire calls during the fiscal year, Oct. 1, 1942-Oct. 1, 1943, Secretary Shultis revealed in his report.

Thirteen calls were answered in the village, on property valued at approximately \$146,000, with a loss of \$4,845.00.

In the fire district of Antioch township the department answered calls on property valued at approximately \$19,000, with a loss of \$800. Four of these calls were for residence fires and seven for grass fires.

The department made one run to Lake Villa, one to Fox Lake, and one to Bristol. Five calls from Salem township were answered. These out-of-district calls were made in keeping with reciprocal agreements among the various fire districts, resulting in greater protection to each one.

Can we help it if our front window looks out on the main drag? And if we look out occasionally? Well, be that as it may, we derived no little amusement, just as things were getting a trifle dull along about 5:15 Sat. aft., when two gent's cars clunked against each other and they set up a jawing match with great relish and gusto, right in front of our delighted eyes. We listened kind of hopefully, thinking we might pick up a few phrases we could use ourselves at some time in the future, should need arise, but didn't hear none. In fact, we coulda done better. We derived pleasure from the incident, but no profit. Next time you find yourselves at a loss for words, boys, call in an expert. Words is our stock in trade.

When we get pretty fed up over reports on waste, mis-management, chiseling, etc., you've no idea how good an item like this makes us feel: Savings to the government of about \$200,000 a month are credited to the repair of equipment by Army camp quartermaster repair shops in the Sixth Service command, according to Maj. Gen. H. S. Aund, commanding general of the Sixth Service command with headquarters in Chicago.

Repair of 40,000 pairs of shoes and 170,000 garments a month in Illinois, Michigan and Wisconsin contribute to the saving, Lieut. Col. W. A. McDonald, service command salvage and reclamation officer, added. Typewriters, office machines, kitchen equipment, and all other equipment issued by the quartermaster corps also are repaired in the shops located at major camp.

Repairing is done in shoe, textile, canvas and webbing, wood and metal, and typewriter and office machine shops. The repairs may range from patches on uniforms or new handles (continued on page 5)

Men you've never even met *Are fighting for you now!*

Americans, all—millions of them!

The son of the tailor down at the corner . . . the young brother of the banker . . . the nephew of the gas-station man . . . the farm boy from Iowa . . . the college boy from Park Avenue.

Fighting, all of them—for us. That's Democracy in action. Because all Americans were "created free and equal" every American has an equal duty to perform.

And that's where WE come in. We've got to *back up* those boys. We've got to see that they get the stuff to fight with. Planes . . . tanks . . . guns . . . bullets . . . bombs . . . more of them than the world has ever seen before.

Every payday we've got to *save*—put 10 percent of our pay in War Bonds. Millions of other Americans are doing it. "Sacrifice," you say? *As great a sacrifice as the boys made at Bataan or Corregidor! As great a sacrifice as a flier made who deliberately gave his life to bomb a Jap plane carrier!*

Nothing we can do can ever equal what these men have already done!

Mind you, we're not even asked to *give* this money. Every time we save \$18.75 we get a War Bond worth \$25 in 10 years.

That's why we're not looking for excuses, we Americans. We're not looking for excuses from *lending* money, when other Americans are *giving* their lives!

DO YOU KNOW?

When you buy WAR BONDS, you're saving, not giving! Series E WAR BONDS are worth 33 1/3 percent more in 10 years! You get \$4 for every \$3 you invest!

These BONDS, when held to maturity (10 years), yield 2.9 percent per year on your investment, compounded semiannually!

Joining a Pay-Roll Savings Plan makes saving easy!

Joining your bank's Victory Club (it works like any Thrift or Christmas Club) is a convenient way to save for War Bonds for those who aren't members of a Pay-Roll Savings Plan.

You can have enough money to do a lot of things you'd like to do, and to buy the many things you'll need after the war is over, if you save enough in War Bonds every payday NOW!

You can start buying WAR BONDS by buying War Stamps for as little as 10 cents.

EVERYBODY— EVERY PAYDAY 10% IN WAR BONDS

Harold Gaston and Bride Expected Here Monday on Honeymoon

Harold Durling Gaston, third class petty officer, U. S. navy, and his bride, Miss Mildred Mary Ernst of Bronx, New York, are expected to arrive here Monday on their honeymoon to visit the bridegroom's parents, Mr. and Mrs. H. B. Gaston.

Their marriage will take place Saturday, October 16, in New York.

The bride is the daughter of Mr. and Mrs. William Ernst, Bronx, and has been employed as secretary to an executive in a New York bank.

The bridegroom has since boyhood been employed in the printing plant of the Antioch News Press, of which H. B. Gaston is editor and publisher. He entered the navy in January, 1942, as printer's mate, third class, and has since been stationed at Great Lakes, and at White Plains, N. Y. He was recently reported as having passed the qualifying examinations for promotion.

His work at White Plains has included operating the color printing presses employed in making the thousands of large posters distributed in connection with the recruiting programs for Waves, and other navy recruiting programs.

"STYLE SHOW" IS GIVEN FOR P. T. A.

Summer and fall costumes which they had made themselves were modeled by 4-H girls at a program given for the Antioch Grade School Parent Teacher association Monday evening by the Home Bureau unit.

Mrs. J. P. Heick of the Home Bureau spoke on the useful and practical training afforded by 4-H and Home Bureau activities and invited all who were interested to visit their meetings.

An all-girl orchestra under the direction of Hans von Holwede furnished music for the program.

The sixth grade was announced as winner of the room prize of \$3.00.

LEGION AUXILIARY HAS 66 MEMBERS

The Antioch American Legion now has a paid-up membership of 66, well over the quota of 60 which had been set for this year, it was reported at a meeting Friday evening in the Legion clubrooms.

Legion auxiliary members are assisting the Red Cross unit in the rolling of bandages and making surgical dressings, and reports on this work also were given.

Mrs. Myrtle Klass' birthday anniversary was honored and refreshments were served.

A social meeting and initiation will be held in the home of Mrs. John Horan, Oct. 22.

GRAYSLAKE GIRLS ENGAGEMENT TOLD

Mr. and Mrs. George Jacobson of Grayslake have announced the engagement of their daughter, Norma Phyllis, to Orville C. McDonald, machinist's mate first class, USN. Until recently Miss Jacobson was secretary to Dr. Stanley Anderson. She is a graduate of Warren Township High school.

KAY ANDERSON IS HOME FROM HOSPITAL

Kay Anderson, daughter of Mr. and Mrs. Burt Anderson, was brought home last Thursday from St. Therese hospital, where she had been receiving treatment for infantile paralysis for nearly three weeks. Treatment is being continued at her home in the hope of relieving the paralysis which set in, in one arm.

RED CROSS UNIT CONTINUES TO NEED WORKERS

The Antioch Red Cross unit, which meets Tuesdays and Fridays, is still in need of additional workers to aid in preparing surgical dressings, it is announced. It is advised that those who help bring along a cotton dress to which lint will not stick, and a scarf or other head covering. Fingernail polish should be removed.

EASTERN STAR TO HOLD INITIATION

Initiation will be held by the Antioch Eastern Star at a meeting Thursday evening in the Masonic temple.

On Thursday evening, Oct. 28, the organization will be hostess to the Rainbow Girls.

Members of the local chapter who attended Illinois Grand Chapter meetings in Chicago on Tuesday and Wednesday of last week included Mrs. Sophie Hennings, Mrs. Myrtle Horton, Mrs. Adah Hachmeister, Mrs. Esther Wilton and Mr. and Mrs. William Anderson.

Mr. and Mrs. Rudolph Eckert are the parents of a son born at Burlington Memorial hospital, Oct. 6.

"Homer Byron" in honor of his grandfather, H. B. Gaston, since 1926 editor and publisher of the Antioch News, is the name given by Mr. and Mrs. Howard K. Gaston to the son born to them at the Burlington hospital Oct. 10.

Mr. and Mrs. James Dorsey, Lake Villa, became the parents of a daughter at Victory Memorial hospital, Oct. 13.

CHRISTIAN SCIENCE CHURCHES
"Are Sin, Disease, and Death Real?" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, October 10.

The Golden Text was, "I will restore health unto thee, and I will heal thee of thy wounds, saith the Lord" (Jer. 30:17).
Among the citations which comprised the Lesson-Sermon was the following from the Bible: "For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life. For God sent not his Son into the world to condemn the world; but that the world through him might be saved" (John 3:16, 17).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "If Christian Science takes away the popular gods—sin, sickness, and death—it is Christ, Truth, who destroys these evils, and so proves their nothingness. The dream that matter and error are something must yield to reason and revelation. Then mortals will behold the nothingness of sickness and sin, and sin and sickness will disappear from consciousness" (p. 347).

on axes to new parts for intricate machinery, Colonel McDonald said.

In addition to the huge cluster of apples that has caused a number of on-lookers to flatten their noses against the Antioch News' front window, our agricultural exhibits now include some potatoes grown by Jim Caples on Charley Ackerman's filled-in land at Indian Point. The biggest potato weighs two pounds even; the others around one and one-half pounds each. The apples were brought in by E. E. Mount, of North Main street.

Also in the window can be seen a sizeable squash, grown by D. H. Minto.

Besides being good to eat, ducks have feathers that can be used to help out on the U. S.'s war-time program. Ducks Unlimited points out, launching a nation-wide campaign for collection of this material. Feathers donated should be less than 2½ inches in length. They should be kept dry. Shipments donated should be sent, transportation collect, to Ducks Unlimited, 83 Columbia street, Seattle, Wash. The name and address of the donor and "water-fowl feathers" should be marked on the package. The feathers will be sold to manufacturers of parkas and sleeping bags for troops, at government established prices. Proceeds go into a fund for establishment of waterfowl nesting refuges in line with the work Ducks Unlimited is doing in Canada to rehabilitate marshes for the use of ducks and geese.

State Fire Marshal James Stearns departed Canada-ward on the Soo Line's 7:20 train Saturday evening, promising to all and sundry a piece of venison, a few fish, a few ducks, etc., on his return. Just as the News staff (included in the ranks of recipients to be) was cleaning up the office gas plate, thinking of taking up a collection for the purchase of some cooking utensils, and laying in a store of salt and pepper, we cannily thought to ask him if he really figured he'd be able to make good on all those promises. Said he—"You ought to know I couldn't!" So we're refusing to count our mallards before they're caught . . . and letting the boys go back to melting glue on the gas plate.

High School Cafeteria
Undaunted by Rationing

(By Billie May Runyard)
By far the most popular room in the whole of Antioch Township High School is the cafeteria, which daily serves luncheon to 100 students.

With war-time rationing the problems of planning meals are increased, but regardless of the many difficulties incurred, the meals served are still rated "tops" by the students.

Menus are planned approximately one week in advance. One meatless day a week is the rule.

BRITAIN'S HIDDEN TAXES

British taxes on some items are interesting in the light of Secretary of the Treasury Henry Morgenthau's request for 10 1/2 billion dollars of new revenue, part of which would be raised by taxation of goods.

FORTRESS EUROPE:

Allies at Walls

With the big battle yet to come, Allied forces sparred with the Nazis all along the outer wall of Fortress Europe.

In Italy, the Americans and British moved slowly northward toward Rome through stubborn Nazi rear-guard action. Entrenched in the rugged terrain, the Germans held back Allied troops with mortar and machine-gun fire, only giving up their ground to move to new positions when Clark and Montgomery brought up superior concentrations of artillery and men.

In an attempt to draw out the German fleet for a fight, British and American naval units raided the Nazis' shipping center of Bodoe in northern Norway. But the German fleet refused to be lured into the trap.

In the Aegean sea, the Nazis recaptured the islands of Kos and Leros, which serve as bases from which an invasion fleet moving into Greece can be shelled and bombed.

SOUTHWEST PACIFIC:

Madang Next

Holding the initiative, Allied forces moved swiftly up the northeastern coast of New Guinea, to clean out remaining Jap air and sea bases in this area of Australasia.

Latest Allied goal was Madang, another of the strong points which the Japanese established to harass any force attempting to move northward by sea or land. Driving forward through tropical country, the Allies neared the first ring of Madang's defenses, apparently manned by a medium-sized garrison, of the type being sacrificed by the enemy command in brief holding engagements.

Pressed in by superior Allied forces in the central Solomons, the Japs were evacuating the island of Kolombangara and moving their troops to the north by barge. Although the Japs moved the barges by night, concentrations were discovered along the shores by day, and these were peppered by Allied fliers.

LABOR:

AFL Meets

Labor's goal after the war will be the establishment of free, democratic trade unions in all countries, AFL President William Green declared in opening the 63rd annual convention of the American Federation of Labor in Boston.

Survival of the free enterprise system in the U. S. will depend upon American business' ability to provide employment after the war, Green said. Unless production is stimulated, the people will lose confidence in business leadership, he declared, and turn to government.

The need for 15 million homes after the war will afford one means of providing employment for seven million workers for many years, Green said.

Chief interest of the convention was the AFL's action on John L. Lewis' application for re-entrance of the United Mine Workers into the organization. Although bitterly opposed by some factions, there were indications the path might be cleared for accepting Lewis through further negotiations.

TAXES:

Ask for More

To add to present collections of 38 billion dollars, Secretary of the Treasury Henry Morgenthau asked congress to raise an additional 10 1/2 billion dollars in new taxes.

Morgenthau proposed raising 6 1/2 billion dollars by increasing personal income taxes and cutting exemptions for dependents. To bring in another 1 billion, 100 million dollars, corporation taxes would be boosted.

The remainder of the money would be raised by sharply increasing taxes on tobacco, liquor, amusements and luxuries. New taxes would be placed on candy, chewing gum, soft drinks and greeting cards. Morgenthau also recommended broadening of the social security program to include practically all workers and provide temporary disability and hospitalization benefits.

On hearing Morgenthau's proposals, Rep. Robert Doughton said: "I do not see at this time how we can make the full increases requested."

DRAFT:

Senate Acts

With Sen. Burton Wheeler's bill to defer the drafting of fathers until January 1 doomed, the senate acted on a substitute measure of Sen. Josiah Bailey, designed to tighten grounds for deferment of government employees, and providing for the appointment of a commission to re-examine physical standards so as to permit use of many present 4F's.

Senator Bailey's bill also included a proposal of Sen. Robert Taft, under which no deferment could be granted unless the appeals board of the district where the employer makes the request gives its approval.

Although the majority of the draft boards held off the induction of fathers until congress acted on the issue, dads were being called in some instances. All told, 446,000 were supposed to be drafted by January 1 under the services' announced plans. However, the senate debate revealed that many more may be drafted because of navy demands.

WHEAT:

Restrict Feed

Commodity Credit corporation sales of wheat to feed mixers must be used for dairy cows and laying hens only, the War Food administration announced. At the same time, the WFA said "an effort is being made to discourage the feeding of market hogs to weights in excess of 200 pounds, or of beef cattle beyond fair to good finish."

To aid in relieving the eastern feed shortage, CCC revealed it was seeking to import wheat from South America, with the amount to be brought in determined by the shipping available. No corn could be imported, CCC said, because drought has crippled the crop.

To encourage the accumulation of a larger country corn inventory by butyl alcohol and butyl acetate producers, OPA redefined a bushel of corn as of 56 pounds weight and 15.5 per cent moisture. Since the price of the chemicals had been tied to a base cost of a bushel of corn, high moisture content failed to reflect true margins.

Sees City's End

Because the automobile, airplane and helicopter will reduce travel time, more and more people will abandon congested cities and move to outlying districts, says Frank Lloyd Wright, one of the foremost leaders in the development of modern architecture.

Frank Lloyd Wright

The home of the future will contain much glass to permit sunshine and light, Wright says, and each one will have a little farm.

Smoke will be eliminated through the development of modern heating systems, Wright predicts, and the entire country will be electrified.

HOGS:

Reach Ceiling

On the first day price ceilings on live hogs went into effect in the Chicago stockyards, virtually all classes of pigs brought producers the \$14.75 a hundred pounds top.

Buyers paid \$14.75 for good 170 to 500 pounders and good sows from 300 to 450 pounds. Good 140 to 160 pounders and 475 to 700 pound sows brought from \$14.50 to \$14.75.

In all, 20 major markets received 87,000 hogs on the first day of the price ceiling, 51,000 below the preceding week. In Chicago, the lighter receipts were reflected in a general price rise, resulting in almost the same return for all grades.

RUSSIA:

'Hold Line'—Hitler

Flying to the Nazis' Dnieper river defense line, Adolf Hitler addressed his generals in these words: "Here I am, and here I shall stand."

As Hitler spoke, the last of the German rear-guards were falling back to the new lines, and the Russians encountered stiff resistance or

they approached the Nazis' main positions. Driving rain further impeded the Reds' march.

Finland, Estonia, Latvia and Lithuania were included in the Nazis' new defense line. Except for a stretch in the north and one in the south, the new line was anchored on the west bank of the Dnieper river.

Broad along most of its course, with steep western banks, the Dnieper offers strong means of resistance. The Germans have massed artillery on these western banks to shell Russians concentrating for attack.

BRITISH NAVY:

New Chief

To tough, 59-year-old Admiral Andrew Browne Cunningham went Great Britain's most responsible fighting assignment, first sea lord and chief of naval staff.

Sir A. B. Cunningham

Cunningham's appointment followed the Italian fleet's surrender to the Allies after it had been driven to cover by superior British forces under his command. An old navy man, Cunningham served in the Mediterranean during the First World war, and in the South Atlantic waters during the Boer war.

To Cunningham will fall the responsibility for operating the great naval armada upon which Britain depends for keeping its supply lines open, in war and peace.

Cunningham succeeds Adm. Dudley Pound, often called the "father" of the British navy's modern aggressive tactics.

BOMB EUROPE:

Hit Nazi Industry

Continuing to hammer the German industrial machine, American Flying Fortresses struck Frankfurt in a daylight raid, using high level precision methods to pick out and destroy production areas. Twelve hours later, a huge British force followed up the attack, dropping 500

tons of bombs, and leaving many sections of the big city burning. Motors, chemicals and tires are manufactured there.

Other targets in western and northern Germany were also assaulted by Fortresses and Liberators, one force disrupting installations at the Nazi-held air base at St. Dizier, France. All flights were escorted by P-47 Thunderbolts, and all reported meeting violent opposition.

Because the Germans have massed anti-aircraft guns around industrial installations and concentrated on fighter plane production, bombings of Europe have become more difficult, it has been revealed.

OIL:

More From Others

Nations with surplus stocks of petroleum should be encouraged to increase production and thereby forestall the depletion of the United States' reserves, a group of western senators and representatives whose states are facing reductions in gasoline rations declared. Mexico and Venezuela in particular were mentioned as countries that could increase their outputs of crude oil substantially.

Clearing the way for invasion

Before our invasion forces can make their landings, the lanes of approach must be swept clean of enemy mines. And this job is being done by the Navy men aboard minesweepers.

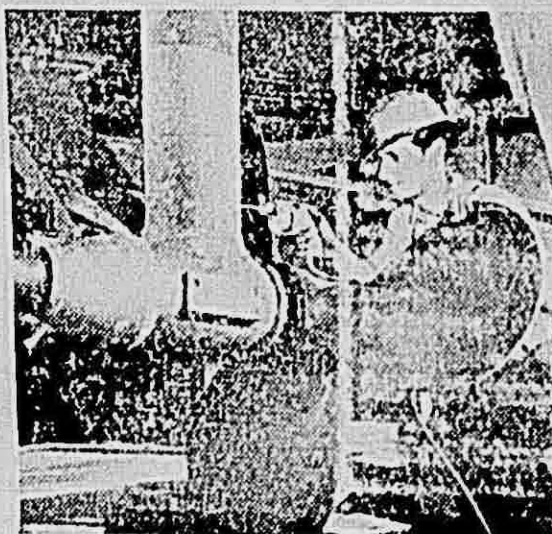

To provide for the United Nations' invasion plans to date and those of the future, American ship builders have achieved mass construction of these minesweepers by drawing on the tremendous energy of Electric Power. Portable electric skill saws, drills, grinders, and welders are all used in the cutting, shaping and fitting of these sturdy seafaring craft. Powerful electric cranes are employed to install the engines and lift aboard the heavy unit parts.

Yes, Electric Power speeds the construction of minesweepers just as it speeds the production of planes, tanks, guns and the hundreds of other implements that are turned out in Northern Illinois.

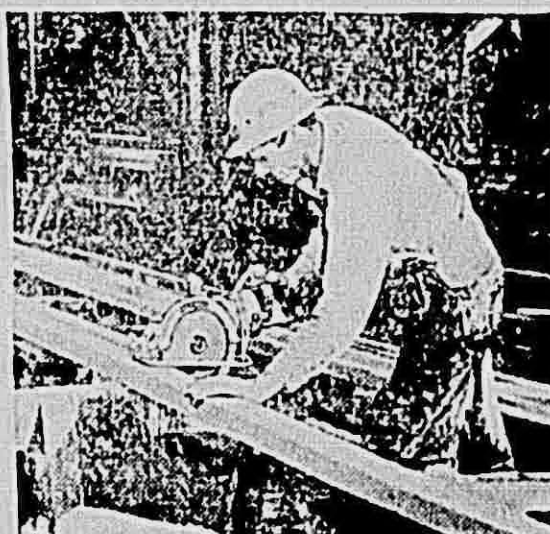

Electric Power Speeds War Production

While YMS 179 slips down the ways to join the Navy, Electric Power is speeding the completion of other minesweepers under construction.

Electrically operated drills make quick work of boring holes. Like the skill saws, these portable drills can be carried to wherever they are needed.

Portable Electric skill saws help to cut days from production schedules of minesweepers which are constructed almost entirely of wood.

HIGHLIGHTS . . . in the week's news

SPENDING: Higher individual incomes resulting from the war boom have boosted sales of various luxuries, a survey by the Northwestern National Life Insurance company shows. The figures reveal that sales of "quality" women's dresses have risen 60 per cent above a year ago, furs 66 per cent, jewelry 35 per cent, playing cards, 56 per cent, and cigarettes 17 per cent.

AUTOS: Dealers in new automobiles will have to sell to customers holding certificates on a "first-come, first-served basis" hereafter, according to an Office of Price Administration ruling.

FAMINE: Great Britain will send part of its scanty grain supply to India to relieve a famine in the Bengal region, Lord Woolton, British minister of food, stated recently.

Electricity has gone to war—don't waste it.

What You Buy With WAR BONDS

Prevents the "Bends"

Before our fighting pilots take to the air for stratosphere flying they must be "sued-up." To do this the pilot just before he takes off pedals a stationary motor driven bicycle to reduce the amount of nitrogen in his blood. Otherwise gas bubbles would collect in his blood stream.

The stationary bicycle is an inexpensive piece of equipment, but the vast quantities of this and other materials of war make it imperative for all of us to keep our fighting men well supplied by greater and greater purchases of War Bonds.
